## Advanced Trauma Life Support®(ATLS)® Course of American College of Surgeons - India Program

The American College of Surgeons and its Committee on Trauma have developed the Advanced Trauma Life Support®(ATLS)® program for doctors. This program provides systemic and concise training for the early care of trauma patients. The ATLS program provides participants with a safe, reliable method for immediate management of the injured patient and the basic knowledge necessary to:

1. Assess the patient's condition rapidly and accurately.
2. Resuscitate and stabilize the patient according to priority.
3. Determine if the patient's needs exceed a facility's capacity.
4. Arrange appropriately for the patient's inter-hospital transfer .
5. Assure that optimum care is provided and that the level of care does not deteriorate at any point during the evaluation, resuscitation or transfer process.

- ATLS® India course provides a scaffold for evaluation, treatment, education and quality assurance.
- ATLS® India is a measurable, reproducible, and comprehensive system of trauma care.

### ATLS Provider Course Upcoming Date :

1. 04<sup>th</sup> to 06<sup>th</sup> October, 2018 : Registrations Open

**Registrations** : Maximum of 16 registrations only.

**Eligibility** : MBBS / BDS & above
